

## Highly Ranked Legal Firm and Widely Respected Legal Practitioners by Chambers & Partners Global Edition

# CHAMBERS — AND PARTNERS —

Our “widely respected team” is once more highly ranked in the global edition of Chambers & Partners Global, one of the world’s leading providers of ratings and recommendation of legal firms.

The guide highly recommends our firm for its “impressive capabilities in complex, high-value international and Cypriot disputes, strength covering debt recovery, international arbitration and fraud claims”, and for being particularly experienced in refinancing transactions, project financing and acquisition finance, involving banks, investment groups and private clients.

Our “very pragmatic, very certain and extremely successful” Senior and Managing Partner, Stavros Pavlou, is ranked as a top tier dynamic and excellent legal practitioner, with “extensive experience in commercial litigation, banking disputes and enforcement proceedings”. He is praised for his very straightforward and effective advice on cross-border corporate reorganizations, and for “knowing the big picture really well”.

Partner-Head of Litigation, Mr Chrysostomos Nicolaou, has been individually ranked for acting on a range of financial disputes and arbitral award enforcement proceedings, while sources describe him as “diligent, experienced and thorough”.

Lia Iordanou Theodoulou, Partner-Head of Corporate Finance, joins the global rankings for her particular commercial awareness and responsiveness, and for being an expert on financial matters including acquisition finance, refinancing and lending mandates.

We are proud of our Partners, legal and support staff for this achievement and for maintaining the exceptional rankings. Our promise is to keep adding real value to our clients’ business, even in difficult times, while managing complexity with swiftness, strategic thinking and accuracy.
