

CAMPAIGN FOR

# GREENER ARBITRATIONS

## Signatories of the Campaign for Greener Arbitrations

We are proud to be the first Cyprus law firm to support the Campaign for Greener Arbitrations, which is dedicated to the implementation of the Green Protocols in each region of the world, with particular attention to regional specificities! The Campaign seeks to raise awareness of the significant carbon footprint of the arbitration community.

As an arbitration practitioner committed in promoting best practices in managing arbitrations in a sustainable way, our Senior & Managing Partner, Stavros Pavlou, signed the "Green Pledge" became a member of the EU Sub-Committee and attended its first virtual conference.

As one of the leading law firms in Cyprus and active advocates of responsible practices, Patrikios Pavlou & Associates LLC strongly supports the principles of the Green Pledge, which include the reduction of energy consumption, printing and waste, the encouragement of electronic means of correspondence and videoconferences, the avoidance of unnecessary travelling and the creation of environmentally-friendly working spaces ([www.greenerarbitrations.com/greenpledge](http://www.greenerarbitrations.com/greenpledge)).

The legal profession must be prepared to play a leading role in taking a climate conscious approach and transitioning towards carbon neutrality in the workplace, while supporting legal innovation and proactive laws and policies that address future environmental and social risks.

We are honoured to be part of this initiative and to be creating positive impact, while being committed in the provision of first-class legal services, and acknowledging that our activities and actions reflect on the environment in which we operate. Let's All go Greener.
