1 Regulatory Framework

1.1 What legislation governs the establishment and operation of Alternative Investment Funds?

The establishment and operation of Alternative Investment Funds (“AIFs”) is governed by the Alternative Investment Funds Law 124(I)/2018 (“AIF Law”) as well as any secondary legislation issued in the form of derivatives/circulars by the Cyprus Securities and Exchange Commission (“CySEC”). In addition, and depending on whether an AIF is internally and/or externally managed, the Alternative Investment Fund Managers Law of 2013 (“AIFM Law”) and Directive 2011/61/EU (“AIFMD”) provide further regulation in relation to this sector.

1.2 Are managers or advisers to Alternative Investment Funds required to be licensed, authorised or regulated by a regulatory body?

Yes, external managers of AIFs are required to be licensed, authorised and regulated by CySEC. The following entities can take the role of an external manager of an AIF:

- (i) an Alternative Investment Fund Manager (“AIFM”) in accordance with the AIFM Law;
- (ii) a UCITS management company authorised in accordance with the Open-Ended Undertakings for Collective Investments Law (UCI) Law of 2012;
- (iii) a Mini Fund Manager, authorised by Law No. 81(I)/2020 for the management of AIF investments whose assets under management do not exceed the limits laid down by article 4(2) of the AIFM Law or article 3(2) of Directive 2011/61/EU (“AIFMD Directive”);
- (iv) an AIFM authorised in another Member State that is subject to prudential rules under the relevant legislation of its Member State of origin; or
- (v) a Cyprus Investment Firm authorised by the Investment Services and Activities and Regulated Markets Law (“MiFID II Law”).

1.3 Are Alternative Investment Funds themselves required to be licensed, authorised or regulated by a regulatory body?

Yes, CySEC is the regulatory body responsible for the licensing, authorisation and regulatory compliance of AIFs. The Registered Alternative Investment Fund (“RAIF”) does not need to receive authorisation by CySEC; it merely needs to be registered with CySEC.

1.4 Does the regulatory regime distinguish between open-ended and closed-ended Alternative Investment Funds (or otherwise differentiate between different types of funds or strategies (e.g. private equity vs hedge)) and, if so, how?

Yes, the regulatory regime distinguishes between open-ended and closed-ended AIFs. An AIF may be of the open-ended type if its shares or units are, at the request of any of its shareholders or unitholders, repurchased or redeemed prior to the commencement of its liquidation phase or winding up, directly or indirectly, out of the assets of the AIF and in accordance with the procedures and frequency set out in its fund rules or instruments of incorporation, prospectus or offering document of the AIF. In all other cases they are of a closed-ended type. An AIF is classified as having a particular strategy if it invests more than 60% of its assets in a single category.

1.5 What does the authorisation process involve for managers and, if applicable, Alternative Investment Funds, and how long does the process typically take?

The authorisation process involves submission to CySEC of the following information, depending on the fund type.

Common Fund

- (i) the name and the data identifying and certifying the appropriateness of the AIF’s external manager, as well as the identity of the persons responsible for the risk management and portfolio management functions;
- (ii) a statement by the external manager confirming that it agrees to perform the investment management functions for the AIF;
- (iii) a statement by the depositary confirming that it agrees to perform the depositary functions;
- (iv) the identity of the person or persons appointed by the depositary as responsible for monitoring the activity of the AIF;
- (v) a draft of the AIF’s fund rules, signed by the AIF’s external manager;
- (vi) a draft of the AIF’s offering document;
- (vii) a draft of the AIF’s key investor information document; and
- (viii) any other information as provided in article 30(1) of the AIFM Law.

Investment Company

- (i) in case of a company under incorporation, the persons that will sign the instruments of incorporation; or
- (ii) in case of an existing company, the members of the board of directors; and

- (iii) when the Investment Company is externally managed, the following must be submitted to CySEC:
 - (a) the name, registered address, and headquarters address of the AIF;
 - (b) sufficient information and data, including a résumé, of the persons who effectively direct the business of the internally managed AIF;
 - (c) the name and the data identifying and certifying the appropriateness of the AIF's external manager, as well as the identity of the persons responsible for the risk management and portfolio management functions;
 - (d) a statement by the external manager, where one is appointed, confirming that it agrees to perform the investment management functions for the AIF;
 - (e) a statement by the depositary confirming that it agrees to perform the depositary functions;
 - (f) the identity of the person or persons appointed by the depositary as responsible for monitoring the activity of the AIF;
 - (g) a draft of the AIF's instruments of incorporation;
 - (h) a draft of the AIF's offering document;
 - (i) a draft of the AIF's key investor information document; and
 - (j) any other information as provided in article 30(1) of the AIFM Law.

Limited Partnership

The external manager or the general partner of the Limited Partnership, in case of a self-managed AIF, in addition to the application for authorisation, shall submit the following:

- (i) the name and address of the registered office and the place of basic activity of the partnership;
- (ii) sufficient information and data, including a résumé, for the persons who effectively direct the business of the internally managed AIF;
- (iii) the name and the data identifying and certifying the appropriateness of the AIF's external manager;
- (iv) a statement by the external manager, where one is appointed, confirming that it agrees to perform the investment management functions for the AIF;
- (v) a statement by the depositary confirming that it agrees to perform the depositary functions for the assets of the AIF;
- (vi) the identity of the person or persons appointed by the depositary as responsible for monitoring the activity of the AIF;
- (vii) a draft of the AIF's partnership agreement;
- (viii) a draft of the AIF's offering document;
- (ix) a draft of the AIF's key investor information document; and
- (x) any other information as provided in article 30(1) of the AIFM Law.

CySEC shall grant authorisation to the AIF only if it approves:

- (i) the relevant application as described above;
- (ii) the rules or instruments of incorporation;
- (iii) its choice of external manager, or, in case of a self-managed AIF, the persons who effectively conduct the business; and
- (iv) its choice of depositary, if one is appointed.

CySEC shall inform the external manager of the AIF or the self-managed AIF within six months of the submission of a complete application file.

1.6 Are there local residence or other local qualification or substance requirements for managers and/or Alternative Investment Funds?

AIFs which operate in the form of an Investment Company must be authorised by CySEC and have their registered office in the Republic of Cyprus.

In the case of an internally managed AIF, the board of directors shall undertake the responsibilities of the external manager, which shall appoint at least one person responsible for the portfolio management who meets the following conditions:

- (i) holds academic qualifications and/or has experience related to the assets in which the AIF is allowed to invest;
- (ii) certified to provide portfolio management service in accordance with the provisions of the Investment Services and Activities and Regulated Markets Law, as amended; and
- (iii) registered in the public register kept by the Securities and Exchange Commission, in which the persons who succeed in the exams of the Securities and Exchange Commission are registered.

1.7 What service providers are required?

This highly depends on the structure of the AIF in question. The usual service providers of an AIF are the depositary, the fund administrator and the auditor.

1.8 What rules apply to foreign managers or advisers wishing to manage, advise, or otherwise operate funds domiciled in your jurisdiction?

An AIFM of another Member State which is authorised in accordance with the AIFMD Directive may undertake the following either directly or by establishing a branch:

- (i) manage AIFs established in the Republic, provided that the AIFM is authorised to manage that type of AIF; and
- (ii) provide in the Republic of Cyprus the services which are covered by the AIFM licence.

An AIFM of another EU Member State which intends to manage AIFs established in the Republic for the first time may start providing its services in the Republic upon receipt of the transmission notification from the competent authorities of its home Member State.

1.9 What relevant co-operation or information sharing agreements have been entered into with other governments or regulators?

CySEC maintains a wide range of co-operation agreements and/or memoranda of understanding with many jurisdictions. For further information on the memoranda of understanding, please refer to: <https://www.cysec.gov.cy/en-GB/cysec/INTERNATIONAL-AFFAIRS/MoU/>.

2 Fund Structures

2.1 What are the principal legal structures used for Alternative Investment Funds (including reference where relevant to local asset holding companies)?

The legal structures available for AIFs are:

- (i) The AIF with an unlimited number of persons (AIF), which can take the form of a Common Fund or Variable/Fixed Capital Investment Company subject to the Companies

Law Cap. 113, or the form of a Limited Partnership with or without legal personality subject to the General and Limited Partnerships and Business Names Law Cap. 116. An AIF is addressed to both retail and professional and/or well-informed investors and no limit on the number of investors that can participate is imposed. The minimum capital requirement is €125,000 at all times both for externally managed and self-managed AIFs.

- (ii) The AIF with a limited number of persons (“AIFLNP”), which can take the form of a Variable/Fixed Capital Investment Company subject to the Companies Law Cap. 113, or the form of a Limited Partnership with or without legal personality subject to the General and Limited Partnerships and Business Names Law Cap. 116. The minimum capital requirement for a self-managed AIFLNP is €50,000 at all times. If the AIFLNP is externally managed, no minimum capital requirements exist. An AIFLNP is addressed only to professional and/or well-informed investors. The number of investors that can participate in this type of fund is limited to 50 investors. Where the AIFLNP is structured as an umbrella fund with multiple investment compartments, the limit of 50 investors applies to the total number of investors and not to each investment compartment separately.
- (iii) The RAIF Common Fund, which can take the form of a Variable/Fixed Capital Investment Company subject to Companies Law Cap. 113, or the form of a Limited Partnership with or without legal personality subject to the General and Limited Partnerships and Business Names Law Cap. 116. A RAIF is addressed only to professional and/or well-informed investors. There is no limit on the number of investors that can participate in the fund and there are no minimum capital requirements.

2.2 Do any of the legal structures operate as an umbrella structure with several sub-funds, and if yes, is segregation of assets between the sub-funds a legally recognised feature of the structure?

Yes, both the AIF and the AIFLNP operate as umbrella structures and the segregation of assets is a legally recognised feature of the structure.

2.3 Please describe the limited liability of investors in respect of different legal structures and fund types (e.g. PE funds and LPACs).

The liability of investors is generally limited, regardless of the structure used.

2.4 What are the principal legal structures used for managers and advisers of Alternative Investment Funds?

A manager usually takes the form of a private limited liability company pursuant to the Companies Law (Cap. 113). Please also refer to question 1.2 above.

2.5 Are there any limits on the manager’s ability to restrict redemptions in open-ended funds or transfers in open-ended or closed-ended funds?

The suspension of redemption or repurchase of units of an AIF, irrespective of whether it is an open- or closed-ended fund, is

only allowed in exceptional cases where this is mandated by the circumstances or is allowed in the AIF’s rules, and, in any case, if this is in the best interests of the unitholders. Furthermore, the relevant suspension of redemption or repurchase requires the prior approval of the external manager or the AIF, in case it is internally managed, as well as authorisation by CySEC, which is communicated by the external manager or the AIF, in case it is internally managed, to the competent authorities of the other countries where the units of the AIF are marketed. The decision to suspend redemption or repurchase must also set the timeframe of the suspension of the redemption or repurchase. Any extension of this timeframe is only permitted after authorisation by CySEC. In addition, CySEC may decide to extend the suspension period where this is justified by the interests of the unitholders of the AIF and where it is necessary in order to ensure the proper functioning of the market.

2.6 Are there any legislative restrictions on transfers of investors’ interests in Alternative Investment Funds?

The general rule is that no legislative restrictions exist on the transfer of investors’ interests in AIFs subject to any restrictions contained in their rules of operation and/or their constitutional/formation documents.

Please also refer to the analysis in question 2.5 above.

2.7 Are there any other limitations on a manager’s ability to manage its funds (e.g. diversification requirements, asset stripping rules)?

Other than the investment restrictions and limitations imposed by CySEC as described below in question 4.2, and the limitations imposed by the AIFMD and the AIFM Law relating to asset stripping, there are no limitations on an AIFM’s ability to manage AIFs.

2.8 Does the fund remunerate investment managers through management/performance fees or by a combination of management fee and carried interest? In the case of carried interest, how is this typically structured?

Usually, an AIF remunerates investment managers through management or performance fees and/or a combination of both.

3 Marketing

3.1 What legislation governs the production and use of marketing materials?

The production and use of marketing materials is governed by the AIF Law and the AIFM Law. CySEC has also issued detailed domestic guidelines from time to time. In addition, Regulation (EU) 1286/2014 (“PRIPS Regulation”) governs the production and offering of the key information document (KID) where units are offered to retail investors.

3.2 What are the key content requirements for marketing materials, whether due to legal requirements or customary practice?

Prospective investors are provided with the offering document of the AIF, fund rules or the instrument of incorporation and

its latest annual and half yearly reports. Additionally, AIFs must disclose to a prospective investor the latest net asset value of the AIF or the latest market price of its units.

The following information is disclosed prior to investment:

- (i) a description of:
 - (a) the investment strategy and objectives of the AIF;
 - (b) the procedures by which the AIF may change its investment strategy or investment policy, or both;
 - (c) the main legal implications of the contractual relationship entered into for the purpose of investment;
 - (d) how the AIFM is complying with the AIF Law;
 - (e) any delegated management functions;
 - (f) the AIF's valuation procedure and the pricing methodology for valuing assets;
 - (g) the AIF's liquidity risk management;
 - (h) all fees, charges and expenses of the AIF; and
 - (i) how the AIFM ensures fair treatment of investors;
- (ii) the identity of the AIFM, the AIF's depositary, auditor and any other service providers and a description of their duties and the investors' rights;
- (iii) the procedure and conditions for the issue and sale of units;
- (iv) the historical performance of the AIF; and
- (v) the identity of the prime broker.

For open-ended AIFs addressed to retail investors, a key investors' information document must also be given to the applicant free of charge.

As a general rule, all marketing communications of an AIF to investors shall be precise, clear and not misleading.

3.3 Do the marketing or legal documents need to be registered with or approved by the local regulator?

Core marketing materials such as those indicated in question 3.2 need to be approved by CySEC.

3.4 What restrictions (and if applicable, ongoing regulatory requirements) are there on marketing Alternative Investment Funds?

Marketing of AIF units to another EU Member State or third country

The external manager or the AIF, in case it is internally managed, may market in another Member State or third country the units of the AIF to professional and/or well-informed investors only if this is allowed by the legislation of that Member State or third country, or to retail investors. In case of retail investors, however, further notification requirements are applicable. Before the marketing of the units of the AIF in the Member State or third country begins, the external manager or the AIF, in case it is internally managed, shall submit to CySEC a confirmation by the competent authorities of the Member State or third country that the appropriate marketing procedures provided by the legislation of the host country have been followed.

Marketing of units of AIFs from another EU Member State or third country into Cyprus

An AIF established in another Member State or third country, which is externally managed by an AIFM, may market its units in the Republic of Cyprus in accordance with the provisions of the AIFM Law.

AIFs established in another Member State or third country which do not fall within the scope of the AIFM Law may market their units in the Republic of Cyprus only where they are subject

to effective supervision in their home Member State, in accordance with the applicable legislation, to ensure the protection of investors and on the condition that they have been authorised by CySEC for the marketing of their units in the Republic of Cyprus.

AIFLNPs

The marketing of an AIFLNP's units is forbidden prior to the granting of authorisation and the notification of such by CySEC.

RAIFs

The marketing of RAIF units to its investors is carried out in accordance with the AIF Law.

Please note that there are further restrictions on marketing to retail and well-informed investors; please see question 3.5 below.

3.5 Is the concept of "pre-marketing" (or equivalent) recognised in your jurisdiction? If so, how has it been defined (by law and/or practice)?

Directive 2019/1160/EU of 20 June 2019 on cross-border distribution, which regulates pre-marketing, has been fully transposed into Cyprus law.

3.6 Can Alternative Investment Funds be marketed to retail investors (including any specific treatment for high-net-worth individuals or semi-professional or similar categories)?

AIFs can be marketed to retail investors in Cyprus provided that the AIF has been granted authorisation by CySEC in accordance with the relevant provisions of the AIF Law and the AIFM Law.

Where the AIF is addressed to retail investors, additional requirements exist as follows:

- (i) marketing communications must specify where and in which language the offering document may be obtained by the investors and the authorisation number of the AIF. All marketing communications and every document or message which contains directly or indirectly an invitation to purchase units of an AIF, including those posted on the internet, must include in a prominent section that the performance of investments in units of the AIF is not guaranteed and that previous returns do not ensure future ones. In case of an AIF with guaranteed performance, the above reference shall be limited to the fact that past performance does not guarantee the same performance in the future;
- (ii) in case an AIF replicates a stock exchange index, all marketing communications must include a specific statement in a prominent section on the attention the investors need to give to the investment policy of the AIF; and
- (iii) in case the net asset value of an AIF has high volatility because of the composition of its portfolio or the management techniques used, all marketing communications shall include a specific statement in a prominent section drawing the attention of the investors to this aspect.

No specific treatment for high-net-worth individuals exists.

3.7 What qualification requirements must be met in relation to prospective investors?

Further to question 2.1 above, which specifies what type of investor can invest in which fund under the laws of Cyprus, there is a distinction between: (i) a professional investor (an investor which is considered to be a professional client or may, on

request, be treated as a professional client within the meaning of the MiFID II Law); (ii) a well-informed investor (every investor who is not a professional investor as further defined in the AIF Law); and (iii) a retail investor (an investor who does not qualify as a professional investor nor as a well-informed investor).

3.8 Are there additional restrictions on marketing to public bodies such as government pension funds?

No particular restrictions exist on marketing AIFs to public bodies.

3.9 Are there any restrictions on the participation in Alternative Investments Funds by particular types of investors (whether as sponsors or investors)?

There are no restrictions on participation in AIFs subject to the internal on-boarding procedure of each particular AIF and anti-money laundering restrictions.

3.10 Are there any restrictions on the use of intermediaries to assist in the fundraising process?

No particular restrictions exist on the use of intermediaries provided that they have a licence to provide such service. The relevant marketing requirements, including the requirements of Directive 2019/1160/EU, must also be complied with.

4 Investments

4.1 Are there any restrictions on the types of investment activities that can be performed by Alternative Investment Funds?

No particular restrictions exist on the types of investment activities; however, all its investment activities and/or investments must be made in accordance with its defined investment policy as approved by CySEC.

4.2 Are there any limitations on the types of investments that can be included in an Alternative Investment Fund's portfolio, whether for diversification reasons or otherwise?

AIFs which are addressed to retail investors are allowed to invest in, *inter alia*, one or more of the following:

- (a) transferable securities;
- (b) money market instruments;
- (c) units of collective investment undertakings;
- (d) derivative instruments which satisfy certain conditions;
- (e) deposits with credit institutions;
- (f) immovable property and property related to immovable property;
- (g) mortgage-related securities;
- (h) securities which encompass claims of up to 30%;
- (i) commodities of up to 20%; and
- (j) exchanges of up to 20%.

Further restrictions and conditions apply for AIFs addressed to retail investors with respect to investing in shares giving them voting rights in other AIFs, entering into loan agreements secured by assets of the AIF, investing in cash in the same organisation, investing in collective investment funds, investing in securities not admitted or traded on a regulated market and investing in securities of the same issuer, etc.

4.3 Are there any local regulatory requirements which apply to investing in particular investments (e.g. derivatives or loans)?

They are allowed to invest subject to certain requirements set out in Directive 131-2014-03, issued by CySEC.

4.4 Are there any restrictions on borrowing by the Alternative Investment Fund?

An AIF addressed to retail investors may enter into loan agreements which do not exceed, at any time, 25% of the net asset value of the AIF. No restrictions exist for professional and well-informed investors.

4.5 Are there any restrictions on who holds the Alternative Investment Fund's assets?

The assets of an AIF are held by a depositary, which is the party responsible for the safekeeping of the assets of the fund.

5 Disclosure of Information

5.1 What disclosure must the Alternative Investment Fund or its manager make to prospective investors, investors, regulators or other parties, including on environmental, social and/or governance factors?

The fund rules or instruments of incorporation of the AIF shall specify the way the net asset value of AIF units, as well as the subscription price and redemption price of AIF units, are disclosed to investors.

The external manager of the AIF or the AIF itself, in case it is internally managed, shall prepare and submit, without undue delay, to CySEC:

- (i) every material change in the offering document of the AIF;
- (ii) an annual report for each financial year; and
- (iii) a half-yearly report covering the first six months of the financial year. The annual and half-yearly report of the AIF shall be communicated to CySEC by the external manager of the AIF, and made available to the investors by the external manager of the AIF at the points of distribution of its units within the following time limits from the end of the period to which they relate:
 - (a) six months in the case of the annual report; or
 - (b) two months in the case of the half-yearly report.

The offering documents of the AIF, its fund rules or instruments of incorporation and its latest annual and half-yearly reports are provided to any potential investors of the AIF.

The AIF shall provide the investors, free of charge, with its annual report, following a relevant request by them.

In the case of a RAIF, the cover of the offering document shall include in a prominent section that:

- (i) the RAIF is not authorised by CySEC;
- (ii) the RAIF is addressed only to professional and/or well-informed investors; and
- (iii) the registration of the RAIF in the RAIF Register is not equivalent to authorisation by CySEC.

Additionally, the provisions of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial sector must be complied with.

5.2 Are there any requirements to provide details of participants (whether owners, controllers or investors) in Alternative Investment Funds or managers established in your jurisdiction (including details of investors) to any local regulator or record-keeping agency, for example for the purposes of a public (or non-public) register of beneficial owners?

The Republic of Cyprus, on 18 February 2021, fully implemented EU Directive 2018/843 of the European Parliament and of the Council of 30 May 2018, which will create three Ultimate Beneficial Owners registers in the Republic of Cyprus, namely:

- (i) the Companies Register. This register will be maintained by the Registrar of Companies and Official Receiver, and will be open to the public;
- (ii) the Express Trusts and Similar Legal Arrangement Register. This register will be maintained by CySEC. It will not be open to the public, but it may be accessible to those persons who can prove a legitimate interest; and
- (iii) the register of legal bodies other than those registered with the Registrar of Companies, such as clubs, foundations, unions and federations. This register will be maintained by the General Commissioner, and will be open to the public.

5.3 What are the reporting requirements to investors or regulators in relation to Alternative Investment Funds or their managers, including on environmental, social and/or governance factors?

In relation to AIFs with an unlimited number of persons, the annual audited report as well as the half-yearly unaudited report must be submitted to CySEC and made available to investors. In relation to AIFL/NPs, the annual audited report must be submitted to CySEC and must be made available to investors. There are no particular reporting requirements for RAIFs; CySEC will instead rely on the regulated status of the AIFM to ensure both compliance and supervision of RAIFs.

AIFMs shall regularly report to CySEC the following: (i) the principal markets and instruments in which they trade on behalf of the AIFs they manage; and (ii) the main categories of assets held by each AIF.

For each of the EU AIFs they manage and for each of the AIFs they market in the EU, the following must be disclosed to CySEC: (i) the percentage of the AIF's assets which are subject to special arrangements due to illiquidity; (ii) any new liquidity arrangements of the AIF and results of liquidity stress tests; (iii) the risk profile of the AIF, risk management systems employed and results of periodic stress tests; and (iv) the main categories of assets in which the AIF is invested. The frequency of these reports is dependent on the size of the fund.

5.4 Is the use of side letters restricted?

The use of side letters is not restricted. An AIFM, however, is subject to certain operating conditions, including the obligation to treat unitholders fairly and to ensure that no unitholder obtains a preferential treatment unless such preferential treatment is disclosed within the AIF's constitutional documents. The latter is a general principle and is thus also applicable to internally managed AIFs.

6 Taxation

6.1 What is the tax treatment of the principal forms of Alternative Investment Funds and local asset holding companies identified in question 2.1?

Standard taxation rules apply.

AIFs, AIFL/NPs and RAIFs which are established in the form of Variable Capital Investment Companies benefit from the following standard corporate taxation rules:

- (i) corporation tax is set at 12.5%, which is amongst the lowest in the European Union;
- (ii) gains from trading in securities are tax exempt;
- (iii) profits on sales of securities are tax exempt;
- (iv) Notional Interest Deduction (NID) for new equity may reduce the taxable base for interest received by up to 80% (for company-type funds), reducing the effective tax on interest to 2.5%;
- (v) dividends received, capital gains arising from the sale of property abroad as well as capital gains from the sale of shares of foreign property companies are tax exempt;
- (vi) there is no subscription tax on the net assets of the fund;
- (vii) fund management services provided to AIFs are not subject to VAT;
- (viii) each compartment of an AIF, although legally not treated as a separate entity, is for tax purposes treated as a separate taxpayer; and
- (ix) Cyprus tax resident funds can benefit from a wide array of double taxation treaties.

AIFs in the form of a Common Fund or a Limited Partnership are considered tax transparent funds. In such case, the national tax laws of the investor will be applied.

6.2 What is the tax treatment of the principal forms of investment manager/adviser identified in question 2.4?

Fund managers:

- (i) are usually incorporated in the form of companies and benefit from the standard company taxation rules as set out in our response to question 6.1 above;
- (ii) have a 35% cap on personal income tax as well as an option to be taxed at a flat rate of 8% on carried interest for certain employees;
- (iii) enjoy a 50% exemption of income earned for a 10-year period from the date of their first employment in Cyprus (if emoluments exceed €100,000); and
- (iv) who provide fund management services, subject to certain conditions, to approved mutual funds and AIFs are exempt from VAT.

6.3 Are there any establishment or transfer taxes levied in connection with an investor's participation in an Alternative Investment Fund or the transfer of the investor's interest?

There is no Capital Gains Tax on the gains arising from the disposal or redemption of units in funds unless the fund owns immovable property in Cyprus. However, even if it owns immovable property in Cyprus, no Capital Gains Tax arises if the fund is listed on a recognised stock exchange.

6.4 What is the local tax treatment of (a) resident, (b) non-resident, and (c) pension fund investors (or any other common investor type) in Alternative Investment Funds?

Foreign investors

- No withholding tax on dividends.
- No taxation on redemption of units.
- No deemed distribution restrictions.

Resident investors

- A withholding tax on dividends of 17% applies if the investor is an individual who is both tax resident and domiciled in Cyprus.
- No taxation on redemption of units.
- No withholding tax if the investor is a company.

Resident investors – non-domiciled

- Exemption from the 17% withholding tax on dividends.
- No taxation on redemption of units.
- No withholding tax if the investor is a company.

Where the AIF investor is a non-Cypriot resident, and the AIF is in the form of a Common Fund or Limited Partnership, investors are generally exempt from any withholding tax on distributions and from any tax on the redemption of their units in an AIF under Cyprus law, since AIFs in such a form are not considered to have a permanent establishment in Cyprus. National tax legislation will apply instead.

6.5 Is it necessary or advisable to obtain a tax ruling from the tax or regulatory authorities prior to establishing an Alternative Investment Fund or local asset holding company?

No requirement to obtain advance tax clearance is necessary.

6.6 What steps have been or are being taken to implement the US Foreign Account and Tax Compliance Act 2010 (FATCA) and other similar information reporting regimes such as the OECD's Common Reporting Standard?

The Minister of Finance of the Republic of Cyprus signed the FATCA Intergovernmental Agreement between Cyprus and the USA (Intergovernmental Model 1 Agreement Foreign Account Tax Compliance Act) with the US ambassador on 2 December 2014.

On 29 October 2014, following a Council of Ministers decision dated 22 October 2014, the Republic of Cyprus signed the OECD Multilateral Competent Authority Agreement for the automatic exchange of financial information of financial accounts, which now includes more than 80 signatories.

The Cyprus Government has issued Decrees which transpose FATCA and CRS requirements into domestic law.

6.7 What steps have been or are being taken to implement the OECD's Action Plan on Base Erosion and Profit-Shifting (BEPS), in particular Actions 2 (hybrids/reverse hybrids/shell entities) (for example ATAD I, II and III), 6 (prevention of treaty abuse) (for example, the MLI), and 7 (permanent establishments), insofar as they affect Alternative Investment Funds' and local asset holding companies' operations?

On 5 April 2019, Cyprus voted in the first implementation law of the European Union (EU) ATAD and, more specifically, the

interest limitation rule, CFC rule, and GAAR, which are effective for tax years commencing from 1 January 2019.

On 19 June 2020, Cyprus voted in the second implementation law with respect to the remaining measures provided for in the ATAD, effective as follows:

- Exit taxation provisions: 1 January 2020.
- Hybrid mismatch rules: 1 January 2020 (except for specific reverse-hybrid mismatch provisions effective as of 1 January 2022).

Cyprus signed the Multilateral Convention to Implement Tax Treaty Related Measures ("MLI") to Prevent Base Erosion and Profit Shifting (BEPS) on 7 June 2017. Subsequently, Cyprus ratified the MLI on 23 January 2020. The date of "entry into effect" as regards Cyprus' application of the MLI was 1 May 2020.

6.8 Are there any tax-advantaged asset classes or structures available? How widely are they deployed?

Cyprus allows tax optimisation for fund structures. Specialised advice needs to be sought depending on the nature of the underlying asset.

6.9 Are there any other material tax issues for investors, managers, advisers or AIFs?

There are no further material tax issues for investors managers and/or advisers of AIFs.

6.10 Are there any meaningful tax changes anticipated in the coming 12 months other than as set out at question 6.6 above?

The Government will be providing further tax incentives in order to put Cyprus at the forefront of the tax industry sector as one of the most competitive industry players.

7 Trends and Reforms

7.1 What have been the main trends in the Alternative Investment Funds space in the last 12 months?

The AIF sector in Cyprus has seen broad growth. Assets under management have increased from €2.7 billion in 2016 to €11.6 billion in the third quarter of 2021, with the RAIF being the new structure that entrepreneurs and investors seem to favour the most.

7.2 What reforms (if any) in the Alternative Investment Funds space are proposed?

The AIF realm in Cyprus is a fast-growing and developing area, and reforms are constantly considered. As indicated in many fund forums held on the island, the Government is considering new incentives for entrepreneurs and industry players alike.

Angelos Onisiforou is a Senior Associate in the firm's Corporate and Banking & Finance departments. He practices corporate, commercial and financial law and has great experience on alternative investment funds, onshore restructurings, mergers and acquisitions. He focuses mainly on providing advice in relation to cross-border financing transactions involving the provision of finance, the granting of securities and the subordination of various credit obligations.

Angelos is currently setting up and promoting the firm's Financial Services department for the provision of legal and regulatory advice to investment vehicles and depositaries. He has recently successfully completed a course on "Blockchain, Law Regulation and Policy" and is able to provide legal and regulatory advice for matters concerning crypto assets and other related financial instruments.

Angeliki Epaminonda is a Partner of the firm for Financial, Corporate and M&A. Angeliki has extensive expertise on financing transactions and in particular the setting up of security packages for major European and other international banks and financial institutions, having undertaken numerous out-of-court security enforcements for leading Russian banks. She is an expert in corporate law matters (for both private and public companies) and undertakes complex cross-border acquisitions and acquisition finance. She is also an expert in providing group structuring advice and solutions.

Each year for the last 12 years, Angeliki has produced the ICMA/SLRC industry opinion for Cyprus with respect to GMRA/GMSLA/OSLA/MESLA agreements. She has been involved in a number of securities lending, repurchase and derivative transactions, and often advises on ISDA transactions and regulatory requirements in connection thereto. She provides advice to investment firms, funds and fund managers in terms of set-up and compliance. She is currently involved in setting up the firm's Financial Services department, and has recently been certified as a blockchain expert.
